Most Stanley universal remotes follow the same programming process. They usually require only the push of two buttons, one on the main unit and one on the remote itself. If your model differs and this doesn't work to pair your remote, you might be able to find a PDF of the manual online.

How to Program a Stanley Garage Door Universal Remote | Hunker

The CodeKey Entry System is a wall-mounted, battery-operated keypad that allows anyone to operate the garage door opener as long as that person enters a specific 4-digit ACCESS CODE which is programmed by the owner. The keypad is back lit with LEDs which are normally off. Pressing ANY key lights the keypad.

Stanley garage door opener keyless entry system 49442 ...

A Stanley garage door keypad is wall-mounted, battery-operated device that allows you to open your home's garage door electronically without having to manually lift the door or use a pull chain. The keypad uses a four-digit access code that you program after the keypad is initially installed. You can change the code, disable the keypad manually by entering a invalid code and reset the keypad if the device is not working properly.
