New Museology, Vergo - University of Chicago Press

In keeping with new museum theory, the essays critically focus on the function and purposes of museums, rather than museum methodology. The book as a whole considers museums as places of study and display, how objects function differently within museum contexts, and the inner-relations between museological purposes: mainly, education, entertainment, and socio-political authority.

Critical museology has emerged as a key discourse in contemporary museology. It is a broad field of study that engages critically with museums, calling into question the foundation assumptions of the field. This demonstrates critical museology's close connection to New Museology, which also challenges foundational assumptions in museology.
